C++ Standards Committee Meeting

June 16th-21st 2014

The meeting will be held at the
University of Applied Sciences, HSR Rapperswil, Switzerland

HSR Rapperswil and IFS Institute for Software invite you to the C++ Standards Committee Meeting at the picturesque shore of Lake Zurich.

HSR is a university of applied sciences with about 1400 students – about one fourth of them studying informatics. The campus will provide the meeting facilities. Please check the information panels at building entrances for the location of the meeting rooms. We are planning a social events, so please register via email with silvia.mazzoli@hsr.ch and provide her with the number of persons visiting.

Getting There

Airport

The closest airport is Zurich Airport (ZRH). For information about flights and possible connections check out <http://www.zurich-airport.com/>

Zurich is well connected with the rest of the world. Swiss International Airlines probably is the most convenient carrier for Zurich.

By Train

Public transportation is excellent in Switzerland. So we recommend that you use the train from the airport. There are several frequent connections that take you to Rapperswil within an hour. The easiest is to get a train to Zurich main station (Zürich HB) and then take the lines S7, S5 or S15 to Rapperswil/SG. Please note, that you should NOT choose Rapperswil/BE when buying a ticket at one of the vending machines. The fare is CHF 16.60 one way, or up to CHF 33.20 for a day pass.

By Boat

There is a regular schedule of cruise boats from Zurich, Bürkliplatz to Rapperswil that you can also use with your train ticket. For departure times see <http://www.zsg.ch>

By Car/ Parking

The nearest public parking for HSR Rapperswil is within 10 minutes walking distance at Oberseestrasse (see Rapperswil's parking guide system).

Caution

This paper is preliminary information and we provide it for your convenience and early travel planning. It is important that you make your hotel reservation early, especially if you intend to stay until the end of the meeting, because we had a hard time to block enough hotel rooms in the vicinity. If you only can plan on short notice there is always the option to try to get a hotel room in Zurich and take the 30 minute train ride to Rapperswil.

Hotels

We have made reservations in several nearby hotels (some within walking distance). Please make your reservations by phone, email or fax directly with one of these hotels. Should they be booked please contact us, since there are further opportunities to stay in the vicinity. However, please book early, because there is another larger event going on in Rapperswil towards the end of the week of the meeting. Also vacation season has already started due to the public holidays around that week.

Important! Please mention the meeting name "HSR C++ Standards Committee Meeting" when making your reservation.

The list of hotels where we reserved a preliminary contingent of rooms is attached. Please make your booking early, because in the same week there is another larger event in Rapperswil, so it was hard to get these rooms blocked. Some of the hotels could only provide us with rooms until Friday or Saturday, instead of Sunday.

Local information

The local tourist information located at the harbor of Rapperswil will be able to give your information on further attractions. Besides the medieval town centre of Rapperswil with the town museum and castle and the lake (swimming), there is a children's zoo in the direct vicinity of HSR.

Please have also a look at following links:
