Open Action Items and Unimplemented Resolutions

This is the "To Do" list for WG 9. Some are informal action items assigned to various participants. Some are formal resolutions, which are not yet implemented. Some items are simply in suspense awaiting action by other groups.

AI-78-3: WG 9 members should individually prepare to discuss WG 9 work items after delivery of Ada 202x. Examples could include: additional activities for the HRG along reliability and security lines; co-joining efforts with the real-time workshops in order to produce standards-related documents; adoption of SPARK and its environments into the WG9 scope.

Status: Open. As a result of discussion, we concluded that we can wait for a bit before deciding (but not longer than the period granted), in particular regarding the ARG and how they will interact with the community.

AI-81-3: Pat to get the WG 9 documents transferred to the ISO Documents facility.

Status: Open, pending resolution of retaining public free access to the documents in the official ISO document system.

AI-82-2: Alejandro to submit sections of TR 15942 to WG 9 as they become available.

Status: Closed (superseded by AI-88-1 below)

AI-88-1: Alejandro to send a short description of the work for updating TR 15942 to Tucker and Pat, for the sake of finding a candidate to take over the work.

Status: Open.

AI-88-2: Pat to determine the status for IS 15291 (ASIS) and IS 18009 Ada (Conformity assessment of a language processor).

Status: Done. 15291:1999 is current, with the next review scheduled for April 2026. Likewise, 18009:1999 is current, with the next review scheduled for October 2025.

AI-88-3: Pat to send a note to Juan Antonio de la Puente to determine his wishes regarding HRG membership.

Status: Closed. E-mail sent to Juan on 8 April, confirmed 9 April.

AI-89-1: Randy B. to get an alternate document generation installation set up by end of September 2025.

Status: Open.

AI-89-2: Steve B. to identify ARG rules for defining voting and non-voting members, by June 2025 WG 9 meeting.

Status: Open.

Committee as a Whole

1. The decision of what to do with the Ada standard (in terms of SC 22 projects) beyond the Corrigendum of Resolution 88-3 must be concluded and approved, sufficiently prior to the SC 22 Plenary in September.
2. The instructions from WG 9 to the ARG for the next edition of the Ada standard must be created and approved.
