

JTC 1 SC22
Programming Languages, their
Environments,
and System Software
Interfaces

John L. Hill, Chairman

October 2002

Administration

- Transitioning WG conveners for:
 - WG 4 COBOL
 - WG 16 Lisp (France to Japan)
 - WG 20 Internationalization
 - WG 21 C++
- The JTC 1 Directives are vague about changing WG conveners.

Major Activities

- Held ad hoc on implementing ISO 10646 in programming language standards.
 - Another planned for 2003 – likely topic is cross-language issues
- Intellectual Property Rights
 - Implemented internal procedure to identify issues and obtain definitive, qualified advice
 - All pass through SC 22 secretariat

Plenary Meetings

- **2002-08-27/30, Saariselka, Finland**
 - Participation
 - NBs – 9
 - WG conveners – 8
 - Liaisons – 3
 - Resolutions – 44
 - Seven contributions to this meeting
- **2003-09-15/19 - Norway**

Summary

- JTC 1 SC 22
 - proactively addresses important technical issues
 - responsibly manages administrative issues
 - responds in a timely manner to requests from JTC 1
